Notes to the Financial Statements For the period ended 30 June 2019

1 Reporting Entity

Berger Paints Nigeria Plc ("the Company") was incorporated in Nigeria as a private limited liability company in 1959 and was converted to a public liability company in 1973. Its registered office address is at 102, Oba Akran Avenue, Ikeja Industrial Estate, Ikeja, Lagos. The Company is listed on the Nigerian Stock Exchange.

The principal activities of the Company continues to be the manufacturing, sale and distribution of paints and allied products throughout the country and rent of investment property.

2 Basis of Preparation

(a) Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and in the manner required by the Companies and Allied Matters Act Cap C.20, Laws of the Federation of Nigeria, 2004 and the Financial Reporting Council of Nigeria Act, 2011. The 2019 first quarter unaudited financial statements were authorised for issue by the Board of Directors on April 16, 2019.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following:

-Non-derivative financial instruments initially measured at fair value and subsequently measured at amortised cost.

-Government grant (recognised as deferred income) measured at fair value.

- Inventories: Lower of cost and net realisable value.

The methods used to measure fair value are further disclosed in Note 2(e).

(c) Functional and presentation currency

These financial statements are presented in Naira, which is the Company's functional currency. All financial information presented in Naira has been rounded to the nearest thousand except where otherwise indicated.

(d) Use of estimates and judgment

In the preparation of these financial statements, management has made judgments, estimates and assumptions that affect the application of the Company's accounting policy and the reported amounts of assets, liabilities, income and expenses. Actual result may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgments made in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are included in the following notes:

| | |
|-------------------------|--|
| Note 4(Q) and 31 | Leases: whether an arrangement contains a lease |
| Note 4(D),(F),14 and 15 | Determination of the useful life of leasehold land |
| Note 4(L) and 6 | Recognition and measurement of revenue from rendering of services. |

Information about assumptions and estimation uncertainties that have most significant effects on amounts recognised in the financial statements is included in the following notes;

| | |
|------------------|---|
| Note 2(e) and 30 | Determination of fair values |
| Note 4(G) and 18 | Impairment of financial assets: Expected credit loss and forward looking information |
| Note 26 (a) | Determination of repayment cashflows in respect of the investment property development financing arrangement. |

(e) Measurement of fair values

A number of the Company's accounting policies and disclosures require the determination of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Notes to the Financial Statements

For the period ended 30 June 2019

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. as derived from prices).
- Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in Note 30 – Financial instruments- Fair values and financial risk management.

3 Significant Accounting Policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements. Set out below is an index of the significant accounting policies, the details of which are available on the pages that follow.

| | | | |
|---|----|--|----|
| A. Foreign currency transactions | 10 | O Taxation | 21 |
| B. Financial instruments | 10 | P. Earnings per share | 22 |
| C. Capital and other reserves | 14 | Q Leases | 22 |
| D. Property, plant and equipment | 14 | R. Statement of cashflows | 22 |
| E. Intangible assets | 15 | S. Operating segment | 23 |
| F. Investment property | 15 | T. Dividends | 23 |
| G. Impairment | 16 | U. Prepayments and advances | 23 |

| I. Provisions | 19 | W. Investment in subsidiary | 23 |
| J. Employee benefits | 19 | X. Related parties | 24 |
| K. Inventory | 19 | Y. New standards and interpretations not yet adopted | 24 |
| L. Revenue by nature | 20 | Z. New currently effective requirement | 29 |
| M. Finance income and finance costs | 21 | | |
| N. Government grants | 21 | | |

A. Foreign currency transactions

Transactions denominated in foreign currencies are translated and recorded in Naira at the actual exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated to naira at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences arising on retranslation are recognised in profit or loss.

B. Financial instruments

Policy applicable from 1 January 2018

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

Notes to the Financial Statements

For the period ended 30 June 2019

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

ii. Classification

On initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI - debt investment; FVOCI - equity investment; or FVTPL

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as FVTPL

- it is held within a business model whose objective is to hold assets to collect contractual cash flows;
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Business model assessment: Policy applicable from 1 January 2018

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Notes to the Financial Statements

For the period ended 30 June 2019

Assessment whether contractual cash flows are solely payments of principal and interest: Policy applicable from 1 January 2018

For the purposes of this assessment, ‘principal’ is defined as the fair value of the financial asset on initial recognition. ‘Interest’ is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Company’s claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

(iii) Subsequent measurement

| | |
|------------------------------------|--|
| Financial assets at FVTPL | These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss. |
| Financial assets at amortised cost | These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss. |
| Debt investments at FVOCI | These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss. |
| Equity investments at FVOCI | These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss. |

Notes to the Financial Statements

For the period ended 30 June 2019

(iv) Derecognition and offsetting

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Policy applicable before 1 January 2018

i. Non-derivative financial assets

The Company's financial asset comprises loans and receivables and cash and cash equivalent. The Company initially recognises loans and receivables on the date that they are originated. All other financial assets are recognised initially on the trade date at which the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognised as a separate asset or liability.

Subsequent to initial recognition, non-derivative financial assets are measured as described below:

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses. Loans and receivables comprise trade and other receivables and cash & cash equivalents.

Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cash balances with banks, and short term investments with maturities of three months or less from the date of acquisition, which are subject to an insignificant risk of change in value, less any overdrafts.

ii. Non-derivative financial liabilities

All financial liabilities are recognised initially on the trade date at which the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial liability when its contractual obligations are discharged, cancelled or expire.

The Company has the following non-derivative financial liabilities: Trade & other payables, and loans and borrowings. Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortised cost using the effective interest method.

Financial liabilities, for which the Company has an unconditional right to defer settlement of the liability for at least twelve months after the statement of financial position date, are classified as non-current liabilities.

Notes to the Financial Statements

For the period ended 30 June 2019

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

C. Capital and other reserves

i. Share capital

The Company has only one class of shares, ordinary shares. Ordinary shares are classified as equity. When new shares are issued, they are recorded in share capital at their par value. The excess of the issue price over the par value is recorded as share premium. All ordinary shares rank equally with regard to the Company's residual assets. Holders of these shares are entitled to dividends as declared from time to time and are entitled to one vote per share at general meetings of the Company. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

ii. Share premium

When the company issues shares at a premium, whether for cash or otherwise, a sum equal to the aggregate amount or value of the premium on those shares is transferred to the share premium account. Any transaction costs associated with the share issues are deducted from share premium account, net of any related income tax benefits. The use of the share premium account is governed by S.120 (3) of the Companies and Allied Matters Act, CAP C.20, Laws of the Federation of Nigeria, 2004,

iii. Retained earnings

Retained earnings represents the Company's accumulated earnings since its inception, less any distributions to shareholders, and net of any prior period adjustments. A negative amount of retained earnings is reported as accumulated deficit.

iv. Fair value reserve

Fair value reserve comprises the cumulative net change in available-for-sale financial assets until the assets are derecognised or impaired.

D. Property, plant and equipment

i. Recognition and measurement

The cost of an item of property, plant and equipment is recognized as an asset if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably.

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of construction recognised includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and borrowing costs on qualifying assets. Items of property, plant and equipment under construction are disclosed as capital work-in-progress.

If significant part of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

ii. Subsequent cost

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

iii. Derecognition

The carrying amount of an item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal.

Notes to the Financial Statements

For the period ended 30 June 2019

Gains and losses on derecognition or disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised net in profit or loss in the statement of profit or loss and other comprehensive income.

iv. Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is recognised in profit or loss on a straight line basis over the estimated useful lives of each part of an item of property, plant and equipment which reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. Capital work-in-progress is not depreciated.

The estimated useful lives for the current and comparative periods are as follows:

- Leasehold land – Unlimited
- Buildings – 20 years
- Plants and machinery
 - Fixed plant – 12 years
 - Movable plant – 7 years
 - Generators – 5 years
- Motor vehicles
 - Trucks – 6 years
 - Official vehicles – 4 years
- Furniture and fittings – 8 years
- Computer equipment – 2 years

Depreciation methods, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate.

The attributable cost of each asset is transferred to the relevant asset category immediately the asset is available for use and depreciated accordingly.

E. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible assets may be impaired. The amortisation period and the amortisation method for an intangible asset with finite useful life are reviewed at the end of each year, changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the assets are considered to modify the amortisation period or method, as appropriate, and are treated as charges in accounting estimates.

The amortisation expense of tangible assets with finite lives is recognised in the profit or loss as the expense category that is consistent with the function of the intangible assets. Gains or losses arising from derecognition of an intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the profit or loss when asset is derecognised.

Purchased software with finite useful lives are recognised as assets if there is sufficient certainty that future economic benefits associated with the item will flow to the entity. Amortisation is calculated using the straight-line method over three (3) years.

The carrying amount of an intangible asset is derecognised on disposal or when no future economic benefits are expected from its use or disposal.

F. Investment property

i. Recognition and measurement

An investment property is either land or a building or part of a building held by the Company to earn rentals or for capital appreciation or both.

Notes to the Financial Statements

For the period ended 30 June 2019

Investment property is initially measured at cost, including transaction costs. Such cost does not include start-up costs, abnormal waste, or initial operating losses incurred before the investment property achieves the planned level of occupancy.

The cost model is applied in accounting for investment property. The investment property is recorded at cost less any accumulated depreciation and accumulated impairment losses.

ii. Subsequent expenditure

The cost of replacing a part of an item of investment property is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of investment property are recognised in profit or loss as incurred.

iii. Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each part of the investment property which reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

Except for leasehold land, the estimated useful lives for the current and comparative periods are as follows:

- Buildings – 20 years
- Leasehold land – unlimited

Depreciation methods, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate.

iv. Transfers

Transfers to, or from, investment property are made when there is a change in use, evidenced by:

- commencement of owner-occupation, for a transfer from investment property to owner-occupied property;
- commencement of development with a view to sale, for a transfer from investment property to inventories;

- end of owner-occupation, for a transfer from owner-occupied property to investment property; or
- commencement of an operating lease to another party, for a transfer from inventories to investment property.

Transfers to, or from, investment property does not change the carrying amount of the property transferred, and they do not change the cost of the property for measurement or disclosure purposes.

G. Impairment

Non-derivative financial assets

Policy applicable from 1 January 2018

i. Financial instrument

The Company's financial assets consist of cash and cash equivalent, trade receivables and other financial assets, The Company recognises loss allowances for expected credit loss (ECL) on financial assets measured at amortised cost. The Company measures loss allowances at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 60 days past due.

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than 60 days past due.

Notes to the Financial Statements

For the period ended 30 June 2019

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

For trade receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

For cash and cash equivalent and other financials assets the applies a general approach in calculating the ECLs. The Company considers a financial asset to have low credit risk when its credit risk rating is equivalent to the globally understood definition of investment grade.

ii Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

iii Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 60 days past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

iv Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

v Write off

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

Policy applicable before 1 January 2018

i. Financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be reliably estimated.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Company on terms that the Company would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, or the disappearance of an active market for a security. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

Notes to the Financial Statements

For the period ended 30 June 2019

The Company considers evidence of impairment for receivables at both a specific asset and collective level. All individually significant receivables are assessed for specific impairment. All individually significant receivables found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Receivables that are not individually significant are collectively assessed for impairment by Companying together receivables with similar risk characteristics.

In assessing collective impairment the Company uses historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

For debt instruments classified as available for sale, impairment is assessed based on the same criteria as all other financial assets above. Reversals of impairment of debt instruments are recognised in the profit or loss.

ii. Non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For the purpose of impairment testing, assets that cannot be tested individually are Combined together into the smallest Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Company's of assets (the "cash-generating unit, or CGU").

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated to reduce the carrying amount of the other assets in the unit (Company of units) on a pro rata basis.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

H. Contingent liabilities and contingent assets

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company, or a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are only disclosed and not recognised as liabilities in the statement of financial position. If the likelihood of an outflow of resources is remote, the possible obligation is neither a provision nor a contingent liability and no disclosure is made.

Notes to the Financial Statements

For the period ended 30 June 2019

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and its recognition is appropriate.

A contingent asset is disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognised in the financial statements of the period in which the change occurs. If an inflow of economic benefits has become probable, an entity discloses the contingent asset.

I. Provisions

A provision is recognised, if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost in profit or loss.

J. Employee benefits

i. Defined contribution plan

A defined contribution plan is a post-employment benefit plan (pension fund) under which the Company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts.

In line with the provisions of the Pension Reform Act 2014, the Company has instituted a defined contribution pension scheme for all employees. The Company and its employees contribute a minimum of 10% and 8% of the employees annual basic salary, housing and transport allowances respectively to the scheme. Employee contributions to the scheme are funded through payroll deductions while the Company's contributions are charged to profit and loss.

On 1 January 2016, the Company increased the employer contributions to the scheme to 15% of employee's annual basic salary, housing and transport allowances.

ii. Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided in profit or loss.

A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

iii. Termination benefits

Termination benefits are recognized as an expense when the Company is committed demonstrably, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy.

Termination benefits for voluntary redundancies are recognized as an expense if the Company has made an offer of voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably. If benefits are payable more than 12 months after the reporting period, then they are discounted to their present value.

K. Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventory includes expenditure incurred in acquiring the inventory, production or conversion costs and other costs incurred in bringing them to their existing location and condition. The basis of costing is as follows:

Notes to the Financial Statements

For the period ended 30 June 2019

Raw materials, non-returnable packaging materials and consumable spare parts – purchase cost on a weighted average basis including transportation and applicable clearing charges.

Finished products and products-in-process – weighted average cost of direct materials and labour plus a reasonable proportion of manufacturing overheads based on normal levels of activity.

Goods in transit – Purchase cost incurred to date

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of conversion and selling expenses. Allowance is made for obsolete, slow moving or defective items where appropriate.

L. Revenue by nature

(i) Revenue from contract with customers

The Company has initially applied IFRS 15 from 1 January, 2018. Information about the Company's accounting policies relating to contracts with customers and the effect of initially applied IFRS 15 is disclosed in note 3.

Policy applicable from 1 January 2018

a Sale of paints and allied products

Revenue from the sale of goods in the course of ordinary activities represents sale of paints and allied products and is measured at the fair value of the consideration received or receivable, net of value added tax, sales returns, trade discounts and volume rebates.

Revenue is recognised when the goods are delivered and have been accepted by customers. The Company allocates a portion of consideration received to loyalty points as applicable. The allocation is based on the relative stand alone selling prices. The amount allocated to the loyalty program is deferred, and is recognised as revenue when loyalty points are redeemed or the likelihood of the customer redeeming the loyalty points become remote. The deferred revenue is included in contract liabilities.

b Contract services - supply and apply services contract

Supply and apply services contract revenue results from rendering painting services to customers. These services are rendered based on specific negotiated contracts with the customers.

Contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably.

Revenue is recognized overtime on basis of the Company's cost incurred relative to the total expected cost for the satisfaction of the performance obligation. The related cost are recognised in profit or loss when they are incurred. Advances received are included in contract liabilities.

Policy applicable before 1 January 2018

a Sale of paints and allied products

Revenue from the sale of goods in the course of ordinary activities represents sale of paints and allied products and is measured at the fair value of the consideration received or receivable, net of value added tax, sales returns, trade discounts and volume rebates.

Revenue is recognised when significant risks and rewards of ownership have been transferred to the customer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods and the amount of revenue can be measured reliably.

If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognised as a reduction of revenue as the sales are recognised.

b Contract services - supply and apply services contract

Supply and apply services contract revenue results from rendering painting services to customers. These services are rendered based on specific negotiated contracts with the customers.

Notes to the Financial Statements

For the period ended 30 June 2019

Contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably.

If the outcome of a service can be estimated reliably, then contract revenue is recognised in profit or loss in proportion to the stage of completion of the contract. The stage of completion is assessed by recalculating the proportion that costs incurred to date bears to the estimated total costs of the service. Otherwise, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable.

Contract expenses are recognised as incurred unless they create an asset related to future contract activity. An expected loss on a contract is recognised immediately in profit or loss.

(ii) Investment property rental income

Rental income from investment property is recognised as revenue on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease. Rental income from other properties are recognised as other income.

M. Finance income and finance costs

Finance income comprises interest income on funds invested, dividend income and reclassification of net gains previously recognised in OCI. Interest income is recognised as it accrues in profit or loss, using the effective interest method. Dividend income is recognized in profit or loss on the date that the Company's right to receive payment is established.

Finance costs comprise interest expense on financial liabilities and impairment losses recognised on financial assets (other than trade receivables). Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Foreign currency gains and losses on financial assets and financial liabilities are reported on a net basis as either finance income or finance cost depending on whether foreign currency movements are in a net gain or net loss position.

N. Government grant

Government grants are not recognized until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Company recognizes as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognized as deferred income in the statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognized in profit or loss in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

O. Taxation

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that they relate to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax includes company income tax, tertiary education tax and capital gains tax.

Current tax is the expected tax payable or receivable on the taxable income or loss for the period, using tax rates statutorily enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Income tax liabilities are presented in the statement of financial position net of withholding taxes.

Notes to the Financial Statements

For the period ended 30 June 2019

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is recognised in profit or loss account except to the extent that it relates to a transaction that is recognised directly in equity. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the amount will be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

P. Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held (if any). Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held (if any), for the effects of all dilutive potential ordinary shares.

Q. Leases

i. Determining whether an arrangement contains a lease

At inception of an arrangement, the Company determines whether the arrangement is or contains a lease.

At inception or on reassessment of an arrangement that contains a lease, the Company separates payments and other consideration required by the arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Company concludes for a finance lease that it is impracticable to separate the payments reliably, then an asset and a liability are recognised at an amount equal to the fair value of the underlying asset; subsequently, the liability is reduced as payments are made and an imputed finance cost on the liability is recognised using the Company's incremental borrowing rate.

ii. Leased assets

Assets held by the Company under leases which transfer to the Company substantially all of the risks and rewards of ownership are classified as finance leases. On initial recognition, the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset. Assets held under other leases are classified as operating leases and are not recognised in the Company's statement of financial position.

iii. Lease payments

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease. Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

R. Statement of cashflows

The statement of cash flows is prepared using the indirect method. Changes in statement of financial position items that have not resulted in cash flows such as translation differences, and other non-cash items, have been eliminated for the purpose of preparing the statement. Dividend paid to ordinary shareholders are included in financing activities while finance income received is included in investing activities.

Notes to the Financial Statements

For the period ended 30 June 2019

S. Operating Segment

An operating segment is a distinguishable component of the Company that earns revenue and incurs expenditure from providing related products or services (business segment), or providing products or services within a particular economic environment (geographical segment), and which is subject to risks and returns that are different from those of other segments.

The Company's primary format for segment reporting is based on business segments. The business segments are determined by management based on the Company's internal reporting structure.

All operating segments' operating results are reviewed regularly by the Management Committee, which is considered to be the chief operating decision maker for the Company, to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the Company's Management Committee include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets, head office expenses and tax assets and liabilities.

T. Dividends

Dividend payable is recognised as a liability in the period in which they are declared and the shareholders right to receive payment has been established.

Dividends which remained unclaimed for a period exceeding twelve (12) years from the date of declaration and which are no longer actionable by shareholders in accordance with section 385 of the Companies and Allied Matters Act of Nigeria are written back to retained earnings.

U. Prepayments and advances

Prepayments and advances are non-financial assets which result when payments are made in advance of the receipt of goods or services. They are recognized when the Company expects to receive future economic benefits equivalent to the value of the prepayment. The receipt or consumption of the goods or services results in a reduction in the prepayment and a corresponding increase in expenses (assets) for that reporting period.

V. Deposit for imports

Deposit for imports are non-financial assets which result when letters of credit are opened with the bank for the importation of raw materials and plant and machinery. They are recognized when the Company expects to receive future economic benefits equivalent to the value of the deposit made.

W. Investment in subsidiary

Subsidiaries are entities controlled by the Company. Investments in subsidiaries are carried at cost less accumulated impairment losses in the Company's statement of financial position. Where the recoverable amount of the investment is less than the carrying amount, an impairment is recognized in profit or loss. On disposal of investments in subsidiaries, the difference between disposal proceeds and the carrying amounts of the investments are recognized in profit or loss.

Notes to the Financial Statements
For the period ended 30 June 2019

X. Related parties

Related parties include the Company's shareholders, directors, their close family members and any employee who is able to exert a significant influence on the operating policies of the Company. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity.

Related parties transactions of similar nature are disclosed in aggregate except where separate disclosure is necessary for understanding of the effects of the related party transactions on the financial statements of the entity.

Y. New standards and interpretations not yet adopted

Standards issued but not yet effective

A number of new standards are effective for annual periods beginning after 1 January, 2018 and earlier adoption is permitted; however, the Company has not early adopted the new or amended standard in preparing the financial statement.

– **A) - IFRS 16 - Leases**

The Company is required to adopt IFRS 16 leases from 1 January, 2019. IFRS 16 introduces a single on-balance sheet accounting model for leases. A lessee recognises a right of use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments; there are recognition exemption for short term leases and leases of low value items. As at 30 June, 2019, the company does not have lease arrangement where the company is a lessee. Hence, no impact upon initial application of the standard.

– **B) - Other standards**

- IFRIC 23 Uncertainty over Income Tax Treatments

Z. New currently effective requirement

The following amended standards and interpretations are not expected to have a significant impact on the Company's financial statements:

- Annual improvements to IFRSs 2014 - 2016 Cycle - Amendments to IFRS 1 and IAS 28
- Transfers of Investment Property (Amendments to IAS 40)
- IFRIC 22 Foreign Currency Transactions and Advance Consideration

4 Revenue

(a) Revenue stream for the period comprises:

| <i>In thousands of naira</i> | Recognition policy | 6 Mths to 30 Jun 2019 | 6 Mths to 30 Jun 2018 |
|--|-------------------------------|----------------------------------|----------------------------------|
| (i) Revenue from contract with customers | | | |
| - Sale of paints and allied products* | At a point in time | 1,525,856 | 1,553,178 |
| - Contract services | Over time | 39,984 | 30,715 |
| (ii) Revenue from investment property | Over time | - | - |
| | | <u>1,565,840</u> | <u>1,583,893</u> |

*Revenue from paints and allied products for the period comprises:

| <i>In thousands of naira</i> | 6 Mths to 30 Jun 2019 | 6 Mths to 30 Jun 2018 |
|----------------------------------|----------------------------------|----------------------------------|
| Revenue (net of value added tax) | 1,809,825 | 1,827,808 |
| Discount allowed to customers | (227,543) | (215,312) |
| Rebates to customers | (35,250) | (34,138) |
| Customers support fee | (21,176) | (25,180) |
| Total revenue | <u>1,525,856</u> | <u>1,553,178</u> |

Nigeria is the Company's primary geographical segment as all sales in the current and prior periods were made in the country.

(b) Contract balances

The Company's contract balance comprises of trade receivables from contract with customers.

| <i>In thousands of naira</i> | 30 Jun 2019 | 31 December 2018 |
|--------------------------------|--------------------|-----------------------------|
| Trade receivables (note 16(a)) | <u>131,709</u> | <u>149,297</u> |

5 Other income

Other income comprises:

| <i>In thousands of naira</i> | 6 Mths to 30 Jun 2019 | 6 Mths to 30 Jun 2018 |
|---|----------------------------------|----------------------------------|
| Sale of Scrap | 2,695 | 2,587 |
| Rental income on property subleases* | 24,366 | 26,079 |
| Profit from disposal of property, plant and equipment | 824 | 5,737 |
| Insurance claims received | 1,324 | 1,350 |
| Income from outsourced business partners (distributors) | 3,038 | 747 |
| Sale of diesel oil & miscellaneous income | - | 346 |
| | <u>32,247</u> | <u>36,846</u> |

*This represents income earned from leases of an insignificant portion of the Company's building properties to third parties.

Notes to the Financial Statements
For the period ended 30 June 2019

6 Finance income and finance cost

Recognized in profit or loss:

| <i>In thousands of naira</i> | 6 Mths to 30 Jun 2019 | 6 Mths to 30 Jun 2018 |

| 523,878 | 523,878 |
| <u>1,759,513</u> | <u>1,695,293</u> |

Included in this amount of capital work in progress are capitalized borrowing costs of ₦26.60 million (June 2018: ₦30.94million), at a capitalization rate of 100%.

(f) **Assets held on finance lease**

The leasehold land is held under finance lease arrangements for a minimum lease term of 99 years. The lease amounts were fully paid at the inception of the lease.

The classification of the lease of land as a finance lease is on the basis that the lease transfers substantially all of the risks and rewards incidental to ownership of the land to the Company.

Rental income generated from investment property recognised during the period was Nil (2018: Nil).

Direct operating expenses (including repairs and maintenance) arising from investment property that generated rental income during the period was Nil (2018: Nil).

Depreciation of ₦10.58 million (30 June 2018: ₦10.42 million) charged on investment property for the year was included in administrative expenses

Investment property comprises the Company's land and building at Abuja (hereinafter referred to as Berger Paints Plaza). The Company completed and commissioned the Berger Paints Plaza in November 2013. The Berger Paints Plaza is made up of 2,196 square meters of trade shops and offices available for commercial rent. The property has been leased to third parties and is managed on behalf of the Company by Gauge Construction Servicing Limited.

Each of the leases contains an initial non-cancellable period of one (1) year. No contingent rents are charged.

The fair value of the investment property as at period end has been estimated to be ₦2.05billion (31 December 2018: ₦2.05 billion). The fair value was determined by an external, independent property valuer (Ubosi Eleh and Co.) with Financial Reporting Council of Nigeria (FRC) No: FRC/2015/NIESV/00000013406. The fair value measurement of investment property has been categorised as a Level 2 fair value based on the input to the valuation techniques used.

| Current | <u>33,037</u> | <u>24,668</u> |
| | <u>91,268</u> | <u>88,995</u> |

Notes to the Financial Statements
For the period ended 30 June 2019

- (a) Government grant arises as a result of the benefit received from below-market-interest rate government assisted loans (Bank of Industry loans) obtained to purchase items of machinery and equipment for the installation of the automated water base paint production plant. The production plant is under construction and the grant will be amortised on a systematic basis over the useful life of the production plant.
- Due to the fact that the production plant is not yet available for use as at 30 June, 2019, there has been no unwinding of the government grant into profit or loss.

24 Loans and borrowings

In thousands of naira

| | Non-current liabilities | Current liabilities | Total |
|-----------------------------------|----------------------------|------------------------|----------------|
| 30 June 2019 | | | |

| Total interest-bearing loans | | | | <u>406,053</u> | <u>344,773</u> | <u>421,190</u> | <u>366,604</u> |

i) **Bank of Industry Loan**

The loan is a Central Bank of Nigeria (CBN) intervention fund through Bank of Industry (BOI), which is secured by a "duly executed Negative Pledge" (Bank Guarantee) in favour of Fidelity Bank Plc. The applicable interest rate is 10% per annum subject to review by the BOI in line with the prevailing market conditions. The loan is repayable in seventy monthly instalments (including twelve months moratorium between March 2017 to February 2018) at various dates between March 2018 to December 2022.

As at 30 June 2019, net interest expense of ₦26.60 million (30 June 2018: ₦30.94 million) which accrued on the facility, was capitalised to capital work-in progress.

Notes to the Financial Statements
For the period ended 30 June 2019

ii) Investment property development financing arrangement

The Company engaged the services of Gauge Construction Servicing Limited (“the Contractor”) for the construction, development and management of the Berger Paints Plaza based on a Memorandum of Understanding dated 20 March 2012. The consideration for the investment property development financing arrangement and the services provided by the Contractor is 50% of the rental collections in respect of the property, after the deduction of expenses incurred in the management of the property, for a period of 12 years from 1 November 2013 to 31 October 2025. The consideration is deemed to be the full and final satisfaction of all fees and money due to the contractor in respect of the arrangement. Accordingly, the Company’s obligation to the Contractor is measured at amortised cost using the effective interest method and based on the estimated cashflows specified above.

The Company determines the repayment cash flows by estimating the occupancy, rentals and the expected collections in respect of operating leases of the trade shops and offices available for commercial rent over the remaining period.

iii) Import finance facility

Import finance facility represents outstanding balance on letters of credit facility made available to the Company by Fidelity Bank Plc towards the importation of raw materials and items of plant, property and equipments.

The balance of ₦2.8m as at 30 June 2019 (December 2018: N4.8m) represents equivalent of USD8,000.

31 December 2018

| <i>In thousands of naira</i> | Carrying | Fair value | | |
|---|------------------|-------------------|----------------|----------------|
| | Amount | Level 1 | Level 2 | Total |
| <i>Financial assets not measured at fair value</i> | | | | |
| Other financial assets | 129,213 | - | - | - |
| Trade and other receivables | 190,982 | - | - | - |
| Cash and cash equivalents | 518,864 | - | - | - |
| | <u>839,059</u> | <u>-</u> | <u>-</u> | <u>-</u> |
| <i>Financial liabilities not measured at fair value</i> | | | | |
| Loans and borrowings | 366,604 | - | 421,190 | 421,190 |
| Trade and other payables* | 497,553 | - | - | - |
| Dividend payable | 352,333 | - | - | - |
| | <u>1,216,490</u> | <u>-</u> | <u>421,190</u> | <u>421,190</u> |

*Trade and other payables excludes statutory deductions such as Value Added Tax payable, Withholding Tax payable, PAYE payable, Pension payable and other non-income taxes payables.

The Company has not disclosed the fair values of financial instruments such as short term trade receivables and payables, because their carrying amounts are a reasonable approximation of fair value.

Notes to the Financial Statements
For the period ended 30 June 2019

- Financial instruments in level 1

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1. Instruments included in level 1 comprise treasury bills classified as available for sale.

- Financial instruments in level 2

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Specific valuation techniques used to value financial instruments include:

- (i) quoted market prices or dealer quotes for similar instruments;
- (ii) other techniques, such as discounted cash flow analysis, sales prices of comparable properties in close proximity, are used to determine fair value for the remaining financial instruments.

Adjustment to level 2 inputs will vary depending on factors specific to the asset or liability such as the location or condition of the asset.

(b) Financial risk management

Overview

The Company has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk
- Market risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

(i) Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors has established the Strategy and Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Committee reports regularly to the Board of Directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Company's Audit Committee is assisted in its oversight role by the Internal Audit Function, outsourced to Bamidele Daramola & Co.

Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

Notes to the Financial Statements

For the period ended 30 June 2019

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

| | 31 |
|--|-------------------------------|
| | 30 Jun December |
| <i>In thousands of naira</i> | 2019 2018 |
| Trade and other receivables (See (a) below) | 181,778 190,982 |
| Cash and cash equivalents (excluding cash at hand) (See (b) below) | 182,883 518,764 |
| Other financial assets (See (b) below) | 136,417 129,213 |
| | <u>501,078</u> <u>838,959</u> |

(a) Trade and other receivables

| | 31 |
|--|-------------------------------|
| | 30 Jun December |
| <i>In thousands of naira</i> | 2019 2018 |
| Net trade and rent receivables (See a(i) below) | 87,030 96,992 |
| Deposit with company registrar (See a(ii) below) | 85,610 85,610 |
| Staff debtors (See a(iii) below) | 2,572 1,814 |
| Other receivables (See a(iii) below) | 6,566 6,566 |
| | <u>181,778</u> <u>190,982</u> |

| | 31 |
|---|-------------------------------|
| | 30 Jun December |
| <i>In thousands of naira</i> | 2019 2018 |
| Impairment losses on financial assets recognised in profit or loss were as follows: | |
| - Impairment loss on trade receivable arising from contract with customers | 120,000 120,000 |
| | <u>120,000</u> <u>120,000</u> |

(i) Trade receivables

The Company's exposure to credit risk in respect of trade receivables is influenced mainly by the individual characteristics of each customer. The Company has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes external ratings when available, and in some cases bank references. Credit sales limits are established for each customer and are reviewed regularly. The concentration of credit risk is limited due to the large and unrelated customer base. The company has pledged no trade receivables during the period.

The Company limits its credit risk from trade receivable by establishing a maximum payment of 30 and 60 days depending on the customer credit rating.

Concentration of risk

At 30 June 2019, the maximum exposure to credit risk for trade receivables by type of counterparty was as follows:

| | Carrying amount | |
|------------------------------|-------------------------------|--|
| | 31 | |
| <i>In thousands of naira</i> | 30 Jun December | |
| | 2019 2018 | |
| Wholesale customers | 42,236 27,149 | |
| Retail customers | 16,094 32,080 | |
| Others (Corporates) | 73,379 90,068 | |
| Rent receivable | 75,321 67,695 | |
| | <u>207,030</u> <u>216,993</u> | |

Notes to the Financial Statements

For the period ended 30 June 2019

The Company uses an allowance matrix to measure the expected credit loss (ECL) from trade receivables from sale of paints and rental of investment property. The exposures are calculated separately for each segment based on their common characteristics. Loss rates are calculated based on actual loss experienced over the past three years. These rates adjusted by a scalar factor to reflect differences in economic conditions during the period over which the historical data has been collected and the Company's view of economic conditions over the expected lives of the receivables. The scalar factor is based on forecasted inflation rates and industry outlook.

At 30 June 2019, the ageing of trade receivables that were impaired was as follows:

30 June 2019

| <i>In thousands of naira</i> | Credit impaired | Weighted average loss | Gross | Impairment | Net |
|-------------------------------|--------------------|-----------------------------|----------------|-----------------|---------------|
| | | | | | |
| <i>Current (not past due)</i> | No | #DIV/0! | - | - | - |
| Past due 1–30 days | Yes | 0% | 46,435 | - | 46,435 |
| Past due 31–60 days | Yes | 72% | 40,554 | (29,343) | 11,211 |
| Over 61 days due | Yes | 100% | 44,720 | (44,720) | - |
| | | | <u>131,709</u> | <u>(74,063)</u> | <u>57,646</u> |

31 December 2018

| <i>In thousands of naira</i> | Credit impaired | Weighted average loss | Gross | Impairment | Net |
|-------------------------------|--------------------|-----------------------------|----------------|-----------------|---------------|
| | | | | | |
| <i>Current (not past due)</i> | No | 4% | 78,662 | (3,428) | 75,234 |
| Past due 1–30 days | Yes | 100% | 10,283 | (10,283) | - |
| Past due 31–60 days | Yes | 100% | 5,263 | (5,263) | - |
| Over 61 days due | Yes | 100% | 55,089 | (55,089) | - |
| | | | <u>149,297</u> | <u>(74,063)</u> | <u>75,234</u> |

At 30 June 2019, the ageing of rent receivables that were impaired was as follows:

30 June 2019

| <i>In thousands of naira</i> | Credit impaired | Weighted average loss | Gross | Impairment | Net |
|-------------------------------|--------------------|-----------------------------|---------------|-----------------|---------------|
| | | | | | |
| <i>Current (not past due)</i> | No | #DIV/0! | - | - | - |
| Past due 1–30 days | Yes | - | - | - | - |
| Past due 31–60 days | Yes | 0% | 25,334 | - | 25,334 |
| Over 61 days due | Yes | 92% | 49,987 | (45,937) | 4,050 |
| | | | <u>75,321</u> | <u>(45,937)</u> | <u>29,384</u> |

31 December 2018

| <i>In thousands of naira</i> | | | Gross | Impairment | Net |
|-------------------------------|-----|------|---------------|-----------------|---------------|
| | | | | | |
| Neither past due nor impaired | No | 14% | 25,334 | (3,576) | 21,758 |
| Past due 1–90 days | Yes | - | - | - | - |
| Past due 91–180 days | Yes | - | - | - | - |
| Over 180 days | Yes | 100% | 42,361 | (42,361) | - |
| | | | <u>67,695</u> | <u>(45,937)</u> | <u>21,758</u> |

The Company does not hold collateral on these balances. The Company does not have trade receivables for which no loss allowance is recognized because of collateral.

Movement in the allowance for impairment in respect of trade receivable during the period was as follows:

| <i>In thousands of naira</i> | <u>30 Jun</u> | <u>31</u> |
|------------------------------|----------------------|------------------------|
| | <u>2019</u> | <u>December</u> |
| Balance as at 1 January | 120,000 | 105,101 |
| Net impairment charge | 0 | 14,899 |
| Balance as at 30 June, 2019 | <u>120,000</u> | <u>120,000</u> |

Notes to the Financial Statements

For the period ended 30 June 2019

(ii) Deposit with Company Registrar

This represents amounts held with the Company registrar in respect of payments of declared dividends to shareholders on behalf of the Company. This represents the Company's maximum credit exposure to the financial asset. The refund of this receivable is as stipulated by the Securities Exchange Commission's set guidelines.

The Company's registrar is Meristem Registrars Limited, which has a history of reputable ratings. The Company has assessed the credit risk as low and the FCI is immaterial.

(iii) Staff debtors and other receivables

This mainly represents the rent receivable from Lagos State Internal Revenue Service, receivable from employees and accrued interest on short term deposits.

These receivables are payable on demand and its contractual period is very short (less than 12 months). The Company has assessed the counter parties to have sufficient net liquid assets and are considered to be low credit risk, hence, the expected credit loss is immaterial.

Consequently, the Company has not incurred impairment loss in respect of staff debtors and other receivables.

(b) Cash and cash equivalents and other financial asset:

The Company held cash and cash equivalents of ₦309 million and other financial asset of ₦133 million as at 30 June 2019 which represents its maximum credit exposure on these assets. The cash and cash equivalents are held with commercial banks with investment grade rating and other financial institution counter parties which are rated A+ rating.

Impairment on cash and cash equivalent has been measured on a 12month expected credit loss basis and reflects the short maturities of the exposures. The Company considered that its cash and cash equivalent and other financial asset have low credit risk based on the external credit ratings of the counter parties.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due without incurring unacceptable losses or risking damage to the Company's reputation.

The Company uses standard costing to cost its products, which assists it in monitoring cash flow requirements and optimising its cash return on investments. The Company aims to maintain the level of cash and cash equivalents at an amount in excess of expected cash outflows on financial liabilities (other than trade payables) over the next 60 days. The Company also monitors the level of expected cash inflows on trade and other receivables together with expected cash outflows on trade and other payables. At 30 June 2019, the expected cash flows from trade and other receivables maturing within three months were ₦139 million (31 December 2018: ₦88.9 million). This excludes potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

Notes to the Financial Statements

For the period ended 30 June 2019

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements:

30 Jun 2019

In thousands of naira

| | Carrying Amount | Contractual cash flows | | | | | More than 5 years |
|---------------------------|------------------------|-------------------------------|-------------------------|--------------------|--------------------|--------------------|--------------------------|
| | | Total | 6 months or less | 6-12 months | 1 – 2 years | 2 – 5 years | |
| Loans and borrowings | 344,773 | 344,773 | 91,514 | 39,336 | 157,344 | 56,579 | - |
| Trade and other payables* | 634,027 | 634,027 | 634,027 | - | - | - | - |
| Dividend payable | 390,475 | 390,475 | 390,475 | - | - | - | - |
| | 1,369,276 | 1,369,276 | 1,116,017 | 39,336 | 157,344 | 56,579 | - |

31 December 2018

In thousands of naira

| | Carrying Amount | Contractual cash flows | | | | | More than 5 years |
|---------------------------|------------------------|-------------------------------|-------------------------|--------------------|--------------------|--------------------|--------------------------|
| | | Total | 6 months or less | 6-12 months | 1 – 2 years | 2 – 5 years | |
| Loans and borrowings | 366,604 | 366,604 | 91,514 | 39,336 | 157,344 | 78,410 | - |
| Trade and other payables* | 497,553 | 497,553 | 497,553 | - | - | - | - |
| Dividend payable | 352,333 | 352,333 | 352,333 | - | - | - | - |
| | 1,216,490 | 1,216,490 | 941,400 | 39,336 | 157,344 | 78,410 | - |

*Trade and other payables excludes statutory deductions such as Value Added Tax payable, Withholding Tax payable, PAYE payable, Pension payable and other non-income taxes payables.

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

(iv) **Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices that will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising returns.

1. Currency risk

The Company is exposed to currency risk on purchases that are denominated in a currency other than the functional currency of the Company. The functional currency of the Company is primarily the Naira. The currencies in which these transactions are primarily denominated are Naira (₦), Euro (€), US Dollars (US\$) and Pounds Sterling (GBP). The currency risk is the risk that the fair value or future cash flows of financial instrument will fluctuate due to the changes in foreign exchange rates.

Notes to the Financial Statements

For the period ended 30 June 2019

The Company's policy is to ensure that its net exposure in respect of monetary assets and liabilities denominated in foreign currencies are kept to an acceptable level. The Company monitors the movement in foreign currencies on an ongoing basis and takes appropriate actions as necessary.

Exposure to currency risk

The summary quantitative data about the Company's exposure to currency risk is as follows:

| | 30 June 2019 | | | 31 December 2018 | | |
|--|--------------|-----|-----|------------------|-------|-----|
| | US\$ | € | GBP | US\$ | € | GBP |
| Foreign currency included in cash and cash equivalents | 323,040 | 361 | 356 | 215,528 | 1,051 | 356 |
| Import finance liability (See Note 26(iii)) | (4,000) | - | - | (13,000) | - | - |

The following significant exchange rates were applied;

Naira

US\$ 1
 € 1
 GBP 1

| Average rate during the period | | Period end spot rate | |
|--------------------------------|-----------|----------------------|-----------|
| 30-Jun-19 | 31-Dec-18 | 30-Jun-19 | 31-Dec-18 |
| 350.92 | 354.07 | 362.00 | 365.00 |
| 396.54 | 416.26 | 409.06 | 416.26 |
| 459.71 | 469.47 | 474.22 | 464.06 |

Sensitivity analysis

A reasonably possible strengthening /(weakening) of the naira against all other currencies at 30 June 2019 would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. The analysis assumes that all other variables, in particular interest and inflation rates, remain constant and ignores any impact of forecast purchases.

In thousands of Naira

30 Jun 2019

US\$ (5% movement)
 € (5% movement)
 GBP (5% movement)

31 December 2018

US\$ (20% movement)
 € (20% movement)
 GBP (20% movement)

| | Profit or loss | |
|---------------------|----------------|-----------|
| | Strengthening | Weakening |
| US\$ (5% movement) | 5,775 | (5,775) |
| € (5% movement) | 7 | (7) |
| GBP (5% movement) | 8 | (8) |
| US\$ (20% movement) | 3,696 | (3,696) |
| € (20% movement) | 22 | (22) |
| GBP (20% movement) | 8 | (8) |

Notes to the Financial Statements

For the period ended 30 June 2019

2. Interest rate risk

The Company adopts a policy of ensuring that all its interest rate risk exposure is at fixed rate. This is achieved by entering into fixed rate instruments.

Interest rate risk comprises interest price risk that results from borrowings at fixed rates and the interest cashflow risk that results from borrowings at variable rates. The Board of Directors is responsible for setting the overall duration and interest management targets. The Company's objective is to manage its interest rate exposure through careful borrowing profiling and use of heterogeneous borrowing sources.

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments was:

| Fixed rate instruments | Nominal amount | |
|-------------------------------|-----------------------|-------------------------|
| <i>In thousands of naira</i> | 30 Jun 2019 | 31 December 2018 |
| Financial liabilities: | | |
| Short term borrowings | 113,570 | 109,897 |
| Long term borrowing | 231,203 | 256,707 |
| | <u>344,773</u> | <u>366,603</u> |

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable rate instruments

The Company does not have any variable rate financial assets and liabilities as at 30 June 2019 (December 2018: Nil).

(c) Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders. This is done by using a ratio of adjusted net debt to adjusted equity. Adjusted net debt has been defined as total liabilities, comprising loans and borrowings, less cash and cash equivalents. Adjusted equity comprises all components of equity.

The Company's adjusted net debt to equity ratio at 30 June, 2019 was as follows.

| <i>In thousands of naira</i> | 30 Jun 2019 | 31 December 2018 |
|---------------------------------|--------------------|-------------------------|
| Total liabilities | 1,795,839 | 1,722,247 |
| Less: Cash and Cash equivalents | (183,718) | (518,864) |
| Adjusted net debt | <u>1,612,121</u> | <u>1,203,383</u> |
| Total Equity | <u>2,770,315</u> | <u>2,813,052</u> |
| Net debt to equity ratio | 0.58 | 0.43 |

Notes to the Financial Statements
For the period ended 30 June 2019

28 Operating leases

The Company leases out its investment property (see Note 16)

a. Future minimum lease payments

At 30 June 2019 the future minimum lease payments under non-cancellable leases are receivable as follows:

| <i>In thousands of naira</i> | 30 Jun 2019 | 31 December 2018 |
|------------------------------|--------------------|---------------------------------|
| Less than one year | 58,288 | 53,478 |
| Between one and five years | 5,042 | 24,309 |
| | 63,330 | 77,787 |

b. Amounts recognised in profit or loss

Investment property rentals recognised for the period is Nil (30 June 2018: Nil) was included in 'Revenue' (see note 6). Depreciation expense on the investment property was included in 'Administrative expenses' (see note 10b).

29 Provision of Non Audit Services

The details of non-audit services and the applicable fees paid during the period ended 30 June 2019 were:

| | ₦' million |
|---------------------------------------|-------------------|
| i. Tax services | 1.23 |
| ii Transfer pricing advisory services | Nil |
| iii New IFRS impact assessment | Nil |

30 Contingencies

The Company is engaged in litigations that have arisen in the normal course of business. As at 30 June 2019, Berger Paints Nigeria Plc has three (3) pending legal cases comprising one (1) as plaintiff and two (2) as a defendant. Contingent liability in respect of pending litigations for the Company is ₦6 million as at 30 June 2019 (December 2018: ₦6 million). In the opinion of the directors, it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

31 Subsequent events

There are no significant subsequent events, which could have had a material effect on the state of affairs of the Company as at 30 June, 2019 that have not been adequately provided for or disclosed in the financial statements.

Notes to the Financial Statements
For the period ended 30 June 2019

32 Operating segments

a. Basis of segmentation

The Company has three reportable segments, as described below, which are the Company's strategic business units. The strategic business units offer different products and services, and are managed separately because they require different process and marketing strategies. For each of the strategic business units, the Company's Management Committee review internal management reports on a weekly basis. The following summary describes the operations in each of the Company's reportable segments:

| <u>Reportable segments</u> | <u>Operations</u> |
|-----------------------------------|---|
| Paints and allied products | Manufacturing, distributing and selling of paints and allied products |
| Contract revenue | Rendering of painting services |
| Investment property rental income | Investment property rentals |

The accounting policies of the reportable segments are described in Notes 4.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before taxation, as included in the internal management reports that are reviewed by the Company's Management Committee. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

b. Information about reportable segments

In thousands of naira

| | Paints and allied products | Contract revenue | Investment property rental income | Unallocated | Total |
|--|-----------------------------------|-------------------------|--|--------------------|--------------|
| 30 June 2019 | | | | | |
| External revenues | 1,525,856 | 39,984 | - | - | 1,565,840 |
| Finance income | - | - | - | 10,118 | 10,118 |
| Finance costs | - | - | (8,874) | - | (8,874) |
| Depreciation & amortisation | (63,311) | - | (10,582) | - | (73,893) |
| Net impairment loss on trade receivables | - | - | - | - | - |
| Reportable segment profit / (loss) before taxation | 209,412 | 14,114 | (19,456) | - | 204,070 |
| | | | | | |
| 30 June 2018 | | | | | |
| External revenues | 1,612,496 | 30,715 | - | - | 1,643,211 |
| Finance income | - | - | - | 11,197 | 11,197 |
| Finance costs | - | - | (4,660) | - | (4,660) |
| Depreciation & amortisation | (61,490) | - | (10,432) | - | (71,922) |
| Impairment loss on trade receivables | - | - | - | - | - |
| Reportable segment profit before income taxation | 231,167 | 13,568 | (15,092) | - | 229,643 |

Assets and liabilities by reportable segments are not presented to the Chief Operating Decision Maker (Management Committee) on a regular basis. Therefore, information on segment assets and liabilities has not been presented.

Notes to the Financial Statements
For the period ended 30 June 2019

Reconciliation of reportable segment revenue, profit or loss, assets and liabilities and other material items

Revenues

There are no significant reconciling items between the reportable segment revenue and revenue for the period.

Profit or loss

| <i>In thousands of naira</i> | 6 Mths to 30 Jun 2019 | 6 Mths to 30 Jun 2018 |
|--|----------------------------------|--------------------------------------|
| Total profit or loss for reportable segments | 204,070 | 229,643 |
| Unallocated finance income | 10,118 | 11,197 |
| Profit before taxation | 214,188 | 240,840 |

Other material items

There are no significant reconciling items between other material items for the reportable segments and Company total.

Major customer

Revenue from one customer does not represent up to 10% of the Company's total revenue. Therefore, information on major customers is not presented.
